

FOR IMMEDIATE RELEASE

July 11, 2011

CapsCanada offers capsule printing services to all customers.

Current regulations require capsule printing for pharmaceutical oral dosage forms.

In the OTC and Health nutrition industries there is an increasing demand for product/brand differentiation.

CapsCanada's printing capabilities include one or two-color, rectified or non-rectified, axial and/or radial (up to 360° available).

The company offers fast turnaround on new products or first time orders along with custom logo design and development. Printing capabilities serves both the Pharmaceutical and Nutraceutical/DS markets.

About the company:

CapsCanada® provides pharmaceutical grade gelatin and HPMC capsules along with technical support. Clients include some of the most prestigious pharmaceutical companies.

For more information call customer service **(866) 788-2888** or visit www.capscanada.com
